  - Last Name – First Name
  - Last Name – First Name – Full Middle Name
  - Last Name – First Name – Middle Initial(s)
- Add only the house NUMBER and STREET name to each record you create to act as an additional filter to avoid getting notifications for other properties owned by someone that happens to share the same name as you
  - Adding the STREET name is not recommended if you want to track multiple properties – as you would have to repeat the same name entries for each STREET name to ensure finding a true match
- Repeat as needed to add additional co-owner names and/or name variations such as John/Jonathon, Christopher/Chris, etc
